OFFICIAL

BUILDING Ordinance

—OF THE—

City of Long Beach

CALIFORNIA

No. 735

(New Series)

(over)

444 Attachment
ORDINANCE NO 819
(New Series)

An Ordinance Amending Ordinance No. 735 (New Series) Entitled, "An Ordinance of the City of Long Beach Adopting a "Building Code"; Regulating the Construction, Alteration, Repair, Moving and Demolition of Buildings, and Other Structures, and the Use Thereof; Providing for the Issuing of Permits Therefor; and Repealing all Ordinances, or Parts of Ordinances, in Conflict Herewith"; By Amending Section 139 Thereof.

The Mayor and the City Council of the City of Long Beach do ordain as follows:

Section 1. That Section 139 of Ordinance No. 735 (New Series), entitled as above, be, and the same is, hereby amended to read as follows:

Section 139. AWININGS. No permanent awnings shall be constructed or maintained over any sidewalk or part thereof in the City of Long Beach otherwise than as herein provided. Every canvas awning constructed or placed over any sidewalk shall be at least six feet and six inches above the sidewalk at its lowest point; and metal canopies may be constructed over sidewalks to main entrances to buildings but in no case shall such a canopy cover a store front or the entrance thereto, or any part of such store front or entrance; such canopies shall be constructed of wrought or cast iron, bronze or other solid cast or wrought metal and shall be supported entirely by metal frames and supports; the roofs of such canopies may be of metal or of wire glass supported in metal frames; the lowest point of any portion thereof, including all supports of such canopies, shall be not less than eight feet and six inches, in the clear, above the sidewalk; such canopies shall be supported with metal rods or chains from above the same secured to the walls of the building; every support, frame and constructive part of such canopies shall be of sufficient strength to sustain six times its own weight or strain without breaking and shall be tested at any time when required by the building inspector; proper provision shall be made to carry the water from the canopies through proper conductors to the sidewalk gutters, and such conductors shall be placed within the wall of the building and below the surface of the sidewalk and there shall be no post or other support connecting said canopy with the sidewalk.

Section 2. That the City Clerk certify to the passage of this ordinance and cause the same to be published once in the Daily Telegram.

I hereby certify that the foregoing ordinance was adopted by the City Council of the City of Long Beach at its meeting of August 26, 1913, by the following vote, to-wit:

Ayes: Councilmen: Clapp, Cate, Pearce, McNie, Rucker, Humphreys.

Noes: Councilmen: None.

Absent: Councilman: Bonar.

HARRY B. RILEY,
City Clerk.

(Seal)
Approved this 28th day of August,
1913.

L. S. HATCH,
Mayor.

Bay Windows on Frame Buildings.

Section 230. Bay, oriel or swell windows in frame or wooden buildings may project not more than thirty-six inches over the street line, measured to the finish; and not more than three (3) feet from the face of the building; they must not be more than ten (10) feet wide, measured from end to end, and the finish of their soffits must be at least ten (10) feet above the sidewalk, unless the window is entirely back of the street line.

Bay windows shall not be allowed to project over streets when said streets are less than thirty-five (35) feet wide.

As Amended by Ordinance No. 1107, dated March 14, 1910. (New Series).

ver Section Building Laws.

roadway or the outer rail of any street railroad track.

The permit aforementioned and required shall be granted only to the owner or lessee or the duly authorized agent of the owner or lessee of the lot upon which a building, or in front of which a sidewalk or other work, is proposed to be constructed, altered or repaired, upon the depositing by such owner, lessee or agent with the Board of Public Works of the same, of any portion thereof. And every permit granted as in this Ordinance provided shall be subject to such guaranty.

The Board of Public Works shall prescribe in advance the time and place where the materials as aforesaid shall be deposited, and the permittee shall be notified so to do by said Board; by a notice posted on the premises, the money be necessary, shall be used by said Board for the removal of such dirt, debris or materials.

All the materials intended for use in the purposes aforesaid shall be confined to and occupy only such portion of the street as the permit may designate, and all be prevented from being blown or debris of any kind shall to any other portion of the street, or from interfering in or enjoyment of any property.

No materials of any kind shall be deposited in any gutterway of any street so as in any manner to obstruct the same.

Section 2. All orders or Ordinances or parts of orders or Ordinances in conflict with the provisions of this Ordinance are hereby repealed.

As Amended By Ordinance No. 1461 (new series),
Dated January 23, 1911.

JAMES ROLPH, JR., Mayor.

As Amended by Ordinance No. 1401 (New Series),
December 5, 1910.

... its office a
... or report which shall at
... and readily accessible to the inspection of the public.

No patent chimney or fire-place connected with a patent chimney hereafter constructed or repaired shall be used until a certificate or report has been made and filed by said Board of Public Works, as aforesaid, certifying that said work has been done in compliance with the provisions of this Ordinance, nor shall any building hereafter constructed, wherein patent chimneys or fire-places connected with patent chimneys shall have been installed be plastered until such certificate on which they are used, and when used on the outside of a building they shall rest on an iron plate not less than one-quarter of an inch in thickness covered by not less than eight inches of brick-work, and shall contain a smoke-proof opening near the bottom for cleaning purposes.

All patent chimneys shall be braced every four feet of their height by substantial iron bands securely fastened to the frame or studding or cross-pieces of the building. All joints must be cemented and the bands covering the joints shall be made of the best number 24 iron and filled with cement to make them smoke and spark proof.

All galvanized iron used in the outside covering of patent chimneys shall be of the best number 24 iron, riveted together with rivets not more than three inches
